

KONICA MINOLTA

A smaller ecological footprint is to everyone's advantage—and you can count on Konica Minolta to lead the way in making consumable recycling simple and cost-free.

Whether you have a single Konica Minolta desktop printer, a whole fleet of bizhub® MFPs, or professional bizhub PRESS and bizhub PRO production printers, it's never been easier to recycle your consumables—toner cartridges, imaging units, waste toner bottles, developer units and drums. The recycling process is simple. For full details, just visit our Clean Planet website: www.cleanplanetus.com

A STEP AHEAD

IN REDUCING OUR ECO-FOOTPRINT

NEW & IMPROVED!

RECYCLING PROGRAM

A BETTER WAY TO HANDLE YOUR CONSUMABLES.

HOW OUR PROGRAM PROTECTS THE ENVIRONMENT.

No consumables in landfills. Konica Minolta has partnered with Close the Loop, Inc., a leading global recycler of imaging consumables to process returned consumables in an environmentally safe and responsible manner. All cartridges are recycled with zero waste to landfill and zero incineration.

Creating new and useful materials. Using state-of-the-art material separation processes, all consumables are processed, extracted and recovered for reuse. Recovered component materials are re-engineered so they can again be manufactured into useful products such as asphalt and plastic modifiers.

HOW RECYCLING CAN SAVE YOU TIME AND MONEY.

No cost to our customers. Unlike some recycling plans, Konica Minolta's Clean Planet Recycling Program doesn't require you to pay shipping or recycling costs.

All Konica Minolta consumables can be recycled. We now accept toner cartridges, imaging units, waste toner bottles, developer units and drums—all the consumables from every Konica Minolta model, not just selected models. No matter what volume of consumables you use, there's a recycling program to fit your needs.

A total commitment to the environment. For years, Konica Minolta has led the industry in policies and technologies designed to protect our planet—saving energy, minimizing pollution and reducing environmental impact through the entire lifecycle of our products.

Unique end-user online portal. On our website, you'll find complete instructions on how to order our exclusive Clean Planet recycling boxes. We've streamlined the process so that now all recycling boxes received in your kit have a pre-paid return label applied to the box.

Tracking and reviewing your orders. A new feature of our online portal includes the ability to track your orders so you'll know exactly when your Clean Planet recycling boxes will arrive at your location.

Online reporting. Provides the ability to view and print reports that provide year-to-date information on the estimated bulk weight of all materials and total number of pieces you have sent back for recycling by location.

Small and home office customers: "Single Program." The Single Program is designed for customers who use 3 or less consumables per month. This allows for a single item to be returned for recycling. Simply package your used consumable in your new consumable box, affix the UPS label ordered from the website, and ship. Individual UPS labels are ordered through the website and emailed to you within 1 business day. *Please note: The single return labels are only to be used with Konica Minolta branded material.*

For our mid-sized customers. A recycling box designed to hold 10–15 items (consumables only, not shipping materials) can be ordered from the Clean Planet website. Just assemble the box and place it in your office. When the box is full, simply secure the liner with the included zip ties, tape the lid, and schedule a pick up with UPS through our Clean Planet website. *Please note: only Konica Minolta Clean Planet boxes can be accepted.*

For high-volume customers. Konica Minolta can arrange for the delivery and pickup of recycling pallets that hold a larger quantity of consumable items (not shipping materials). Please check our Clean Planet website for details.

For our Optimized Print Service customers. OPS is now part of Konica Minolta's Clean Planet program, giving you one consolidated method for easily returning and recycling all your consumables.
